OWIS DIGITAL CAMPUS

OWIS NANYANG

About One World International School

Established in 2008, One World International School (OWIS) is a multicultural school that welcomes students of all cultures, ethnicities and religions.

At our school campuses in Singapore, we encourage students to learn in an intimate and engaging setting, where they can focus on discussion, cooperation and teamwork in a nurturing environment.

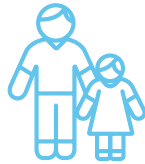

OWIS is part of Global Schools Group, an award-winning interconnected global network that offers a world-class learning experience.

Our Multicultural School Community

We foster diversity in our classrooms, so that our students can experience a truly international learning ethos. We have over 70 nationalities represented in our campuses, with the most prominent ones shown below.

Our Academic Results

Cambridge IGCSE

We are proud of our Cambridge IGCSE academic results; since 2018, we have consistently stood at more than 85% of our cohort earning A* – C grades.

2025 Cambridge IGCSE Academic Results

Almost 90% of our cohort achieved an A* or A in at least 1 subject

IB Diploma Programme

We are delighted that our IB DP students have received offers from the top universities in North America, the United Kingdom, Singapore and other leading study destinations around the world, and they will be pursuing their higher education at colleges of their choice.

Our School Values

- The IB Learner Profile is the centre of our learning community along with the OWIS 'One World, One Community' model that promotes kindness and compassion.
- Our school is an internationally minded community of learners with responsibilities as global citizens.
- All individual members of our community are valued and have a right to be heard.
- We encourage respect and open communication from everyone within our community.
- We allow students to develop in a safe and caring learning environment.
- We encourage collaboration and cooperation within our community and nurture an inquiring and reflective mindset in our students.
- We strive for personal growth and academic excellence for all members of our community.

Kindness

At One World International School, kindness is the most critical element among a whole gamut of personal, emotional and social ingredients that we add to our scholastic mix. What we demonstrate and how we teach kindness equips our children to excel, not merely succeed – in all their life roles, not just in their careers.

Parent Engagement Through Communication

We pride ourselves on the fact that our educators and administrators form a partnership with parents and guardians that leads to a strong support system for all of our students. We make communication with parents a top priority by using various types of technology to provide resources for our entire community-at-large.

Cultural Diversity

We believe that a diverse environment builds resilient, empathetic and competent leaders for the future. In today's world, diversity encompasses more than race. It also refers to ability, gender, class and religion. We pride ourselves on being a multicultural school that promotes kindness and tolerance. We encourage our students to keep an open mind, and we remind them that they are part of an interconnected, global community.

Our Vibrant Campuses in Singapore

OWIS Nanyang Campus

Early Childhood, Primary School & Secondary School

OWIS Nanyang is our established campus in Jurong (West Singapore) where we follow the IB PYP, Cambridge IGCSE and IB DP pathway from Early Childhood to Grade 12 and nurture the attributes of the IB Learner Profile in our students.

OWIS Digital Campus in Punggol

Early Childhood, Primary School & Secondary School

Our newly opened state-of-the-art campus in Punggol offers the reputed OWIS learning experience, which balances strong values with academic excellence. We provide the globally-recognised IB PYP, Cambridge IGCSE, and IBDP pathway, equipping students with the knowledge, skills, and values they need to thrive in the future.

OWIS Newton Campus

Early Childhood & Primary School

In August 2025, we will open a new campus in central Singapore offering values-driven, inquiry-led learning for young children. OWIS Newton will align with the curriculum followed by OWIS Nanyang and OWIS Digital Campus, ensuring consistency in educational approach and a seamless learning journey across our campuses.

Early Childhood Programme

Based on the Early Years Component of the IB Primary Years Programme, our play-based, inquiry-led preschool education lays the foundations of your child's learning journey. For us, every child is a unique individual. This is why we personalise your child's learning journey and focus on their particular progress and needs as a young learner.

What To Expect From Our Early Childhood Programme

Safe and Inviting Learning Environment

From our bright, spacious classrooms to the outdoor learning opportunities, young learners have ample space to nurture their curiosity in a safe and intimate setting. Our warm and enjoyable environment is designed to bring out the best in your child, encouraging them to grow and learn with enthusiasm.

Play-Based and Inquiry-Led Learning

Based on the IB PYP and underpinned by the National Curriculum for England, our programme follows a play-based and inquiry-led approach to learning. Through activities suitable for their development stage, your child embarks on an exciting journey of self-discovery and sensory exploration of the world around them.

How We Stay True To Our Values

Dedicated, caring and enthusiastic teachers encourage your child to develop a sense of responsibility, self-confidence and independence from a young age.

Our educators are IB-trained and continuously expand their knowledge and skills, so they can meet our high standard of education and provide your child with the personal care and support they need.

Primary School - Grades 1 to 5

We offer the International Baccalaureate Primary Years Programme (IB PYP) for Grades 1 to 5 at OWIS. The IB PYP at OWIS is underpinned by the National Curriculum for England to implement age-appropriate learning outcomes.

What To Expect From Our Primary Years Programme

Holistic and Student-Centric IB PYP Curriculum

In the IB Primary Years Programme, students learn to be proactive early on. We encourage them to think independently, ask questions about the world around them, and explore topics of interest.

We also prioritise character development by teaching timeless values and creating a safe environment for children to try new things, build self-esteem and develop a lifelong love of learning through a balanced mix of traditional and technology-driven education.

Friendly and Intimate School Environment

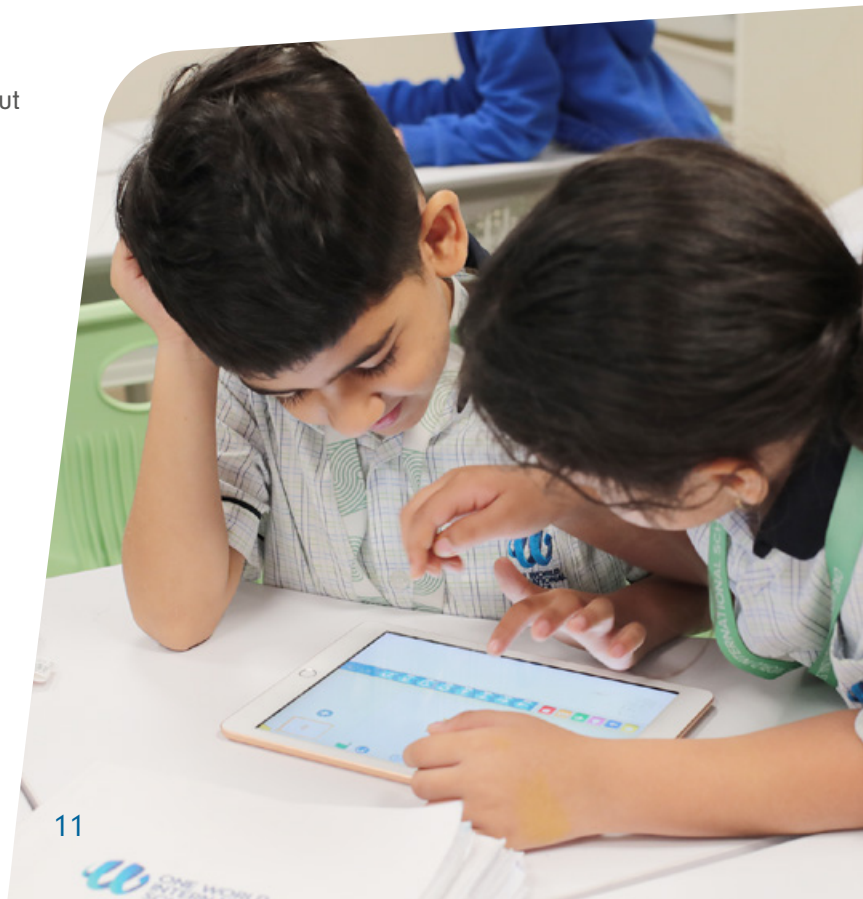

Teachers, students and staff contribute to our school's warm and welcoming atmosphere, making it easier for your child to adjust to their new environment. Our spacious, comfortable and well-thought-out indoor and outdoor learning spaces encourage students to explore their curiosity, develop a love of learning and feel excited about going to school every day.

Experienced and Caring IB-Trained Teachers

Our qualified IB teachers have experience catering to different types of learners in an international setting and continuously upgrade their teaching skills. We select teachers who are passionate about providing guidance, support and understanding during those formative years, so your child can flourish emotionally, socially and academically.

Kind and Truly Multicultural School

Through various cultural awareness initiatives, students learn to appreciate other cultures and respect different points of view. With kindness, diversity and inclusivity at the core of our school's DNA, your child becomes part of a safe, healthy and truly international school community built on mutual trust and respect.

Modified Cambridge - Grades 6 to 8

Secondary education at OWIS is academically rigorous and technology-enabled, and it centres around students' well-being and their holistic development. While we prioritise academic excellence, we also support your child's personal growth so that they can pursue their interests, build confidence and acquire key skills they need for their higher studies.

In Grades 6 to 8, we follow a Modified Cambridge curriculum, which is based on the Cambridge Lower Secondary framework and has been adapted to align with our international school's context and the IB Learner Profile.

Subjects offered in Grades 6 to 8 in the Modified Cambridge Curriculum:

- English
- Maths
- Foreign language (Chinese / French / Spanish)
- Science
- Global Perspectives
- Computing
- Music
- PE
- Art
- Drama
- PSHE (Personal, Social and Health Education)

Pastoral Care

The form tutor is a key part of our Pastoral Care Programme. Students have dedicated time during the school day when they can interact with their form tutors while working on social, emotional and critical thinking activities as well as learning about mindfulness and gratitude. This helps them to build their confidence and develop a positive outlook.

Engaging Student Life

Our focus is on the holistic development of our Secondary students and not just academic outcomes. We offer an exciting programme of Co-Curricular Activities (CCAs) and residentials, where our learners can develop new interests, talents and passions. Our House Competitions are adrenaline-filled events, and students learn the values of sportsmanship and teamwork. We also encourage student agency through clubs and societies, where learners who share common interests with others can hone their skills in a collaborative environment.

Secondary Student Council

Our student council is made up of representatives from both the lower secondary and the upper secondary cohorts. These students are nominated and elected by their peers through a democratic election. The chosen representatives all have a special role in promoting student voice and agency for the betterment of our school.

Secondary School - Cambridge IGCSE for Grades 9 to 10

The Cambridge IGCSE programme at OWIS aims to help students become learners who acquire the knowledge presented to them while simultaneously developing a deep understanding of the subjects studied. It emphasises the skills-based learning programme that is integral to the learning foundation at OWIS.

Our Secondary students at OWIS master:

- Subject content that is presented to them by subject specialists.
- The ability to apply the knowledge that they learn in unique, real-world scenarios.
- The ability to make intellectual inquiries.
- The ability to be flexible and to adapt when necessary.
- The ability to work as a team and communicate in the English language.
- Cultural awareness and the importance of working in a multicultural environment.

Compulsory Subjects

- English - As a first language
- Mathematics
- Science
- A Foreign Language - Mandarin, French or Spanish

Optional Subjects

- History
- Geography
- Business Studies
- Economics
- Global Perspectives
- Computer Science
- Additional Maths*
- Art & Design
- Music
- Drama

The option of Additional Maths is subject to certain conditions.

Subject offerings are based on demand. Please contact the Admissions Team for the latest information.

Secondary School - IB Diploma Programme for Grades 11 to 12

Secondary School is a crucial period for students as they prepare for university life. The International Baccalaureate Diploma Programme (IB DP) at OWIS is a future-focussed pathway that allows students in Grades 11 and 12 to explore the subjects that interest them and establish a solid educational foundation for the future.

At OWIS, we strive to provide an educational environment that allows students to become lifelong learners, and as such, the IB DP perfectly aligns with our mission and values. The IB DP nurtures all aspects of a student's development, and the courses are designed to support students as they grow intellectually, physically, emotionally and socially. After graduating with their IB Diploma, students are on the right path to become well-rounded, internationally-minded global citizens.

The IB Diploma Promotes:

Independent inquiry

Open-mindedness

**Self-management
skills**

A global outlook

Students who graduate from the IB DP at OWIS head to university with strong critical thinking, research and writing skills.

With these skills, IB DP students are uniquely prepared for success not only in the university but also in a professional setting.

The IB Diploma requirements include the following components:

- Theory of Knowledge (ToK)
- Extended Essay (EE)
- Creativity, Activity & Service (CAS)

Course Selection

Students choose courses in 6 subject groups:

- Studies in language and literature
- Language acquisition
- Individuals and societies
- Mathematics
- Sciences
- Art

Our IB DP students are our student role models for the IB Learner Profile Attributes. We are firmly committed to ensuring our students flourish physically, intellectually, ethically and emotionally at OWIS.

University Guidance and Career Counselling

At OWIS, your child will be guided throughout their academic journey so that they can fulfil their personal dreams, goals and ambitions. Your child will have access to our University Guidance and Career Counselling team who are deeply committed to your child's success.

Our University Guidance Team counsels students in Grades 8 to 12 and provides them with information about various career options and universities that may be of interest to them. They help them understand the specific requirements, programmes and scholarship opportunities available at these institutions.

Our University Guidance Counsellor meets with students on an individual basis to guide them in preparing their personal statements and their essay topics for their college applications. Students are provided with both practical and emotional support during this transitional time when they first start to think about their futures as independent adults.

Students who are going on to complete their National Service (NS) in Singapore or are thinking of starting a career after completing Secondary School are guided through this process by our University Guidance Counsellor.

Co-scholastic learning & ECAs

At One World International School, we have created and implemented a variety of co-scholastic learning programmes to provide a well-rounded education to our students.

Languages

We believe that learning additional languages enhances the overall educational experience. This allows students to function better on a personal and professional level, thus making them more competitive in a global economy.

At OWIS, students have the opportunity to learn Mandarin, Spanish or French as second languages. We have also introduced Japanese as a language option in Primary at all our campuses.

The Arts

We work with our students to provide them with opportunities to experience different forms of art as a medium of self-expression. From visual and fine art to drama, our students learn to apply their artistic talents in a variety of ways.

Sports

Physical education teaches students to be aware of their skills, to be confident and to learn about healthy competition as well as teamwork. Our all-encompassing sports education programme promotes activity and competition.

Music

Our music courses allow students to learn more about the process of making music and to take plenty of opportunities to enjoy music. Students

are introduced to the fundamental components of music and are also taught about the process of music development.

Outdoor Learning

Outdoor learning is about extending the learning experience beyond the classroom walls. Our students take part in field trips, residential visits and CAS activities in addition to learning in outdoor spaces as a part of their curriculum.

STEAM and Digital Learning

Our students are introduced to ICT from Primary School, and their digital skills grow throughout Secondary School. We also emphasise digital citizenship, helping them become responsible online citizens. In our dedicated STEAM studios, students also explore creativity and innovation across Science, Technology, Engineering, Art and Mathematics.

ECAs

We partner with specialist providers to offer an exciting range of after-school activities. Through these classes, our students have the opportunity to enjoy courses and experiences that encourage their interests and passions.

Other Optional Programmes for Building Language Proficiency

Academic English Prep Programme

The OWIS Academic English Prep Programme (AEPP) is designed for students in Grades 6 to 8 who are new to the language and need intensive support and guidance to build on their English language competency. This new immersive, full-time programme provides students with the opportunity to focus on their English skills, along with other subjects.

English as an Additional Language Programme

The OWIS English as an Additional Language (EAL) programme is designed to provide students in Grade 1 to Grade 8 in the mainstream IB and IGCSE classrooms with the support they need to improve their English language skills. These additional lessons are conducted in small sizes and with a one-on-one approach.

Students are able to improve their understanding of the subject matter being taught in their regular lessons as well as strengthen their bonds within the diverse student community.

Chinese-English Bilingual Programme

Aligned with the IB PYP, our optional Chinese-English Bilingual Programme provides a rich, engaging and immersive learning experience for our Primary students, so that they can improve their speaking, writing and listening skills in Mandarin and English.

Learning Environment at OWIS

The learning spaces at our OWIS campuses are designed to inspire collaboration, creativity, and holistic development. Our classrooms are equipped with modern technology and flexible seating to foster interactive, collaborative learning.

At OWIS Nanyang and OWIS Digital Campus, ample outdoor areas support PE, sports, and outdoor education, encouraging physical activity and teamwork. Science labs provide hands-on experiences to spark curiosity, while dedicated studios for art, music, and performance nurture students' passions. Recreational spaces allow students to unwind, bond, and form lasting friendships, ensuring their well-being.

At OWIS Newton, our learning spaces foster inquiry and play-based learning. From vibrant classrooms and a Discovery Zone to a Fitness Studio, Maker Space and Friendship Hall, every environment will spark curiosity, creativity, kindness, and collaboration.

These diverse environments promote both academic and personal growth, preparing students for the future.

Parent and Student Testimonials

“ My daughter, who is in Early Childhood, has gained confidence in herself and her abilities. The subject which she struggled with most at the beginning of the school year has now become her favourite subject! I like that my child has a chance to play outside every day and is exposed to a variety of subjects, including art and music. ”

Madison C.

Mayukh G.

“ The highlight of my learning experience in the IB Diploma Programme would be the independent thinking and inquisitive mindset I have cultivated here. The teachers here have played a crucial role in developing my interpersonal and academic skills, thanks to their friendly and helpful attitudes and their commitment to nurturing students. The stress-free curriculum I have experienced here has also been beneficial in motivating me to explore my interests and study at my own pace without feeling restricted to traditional school work such as homework. ”

“ What I love about our OWIS campus is our sports facilities. We’ve got everything from basketball courts and even playgrounds. It’s so nice because there’s something for everyone. Whether you’re into competitive sports or just want to have fun in the playground. Plus, having these facilities encourage us to stay active, make friends and just enjoy being outside. They’re like the heart of our school, bringing us together and keeping us healthy and happy. ”

Ege

YooMee K.

“ One World International School is a great school because it teaches primary school students how to be kind and respectful to each other. We’ve found that kindness as a value is prioritised by everyone at the school. We’re also happy with the teachers for the attention they give our children and for encouraging them to improve all the time. On the academics side, we’re satisfied with the programme where each theme holistically covers various subjects. ”

“ At OWIS, I appreciate how accessible the school staff and teachers are. The communication between parents and teachers is always open. I believe that when children are happy, they enjoy learning, and that’s when something good is happening. At the end of the day, that’s the most important thing. OWIS has become like a big family. It’s a safe environment with top-notch facilities and great education. ”

Ana V.

Yitong W.

“ When I first came to school, I could only understand about 40% of what was being taught. After studying in the English as an Additional Language Programme, my comprehension has improved to 70-80%. However, there is still room for improvement. ”

“ Not only do the Secondary School teachers prioritise your child’s responsibility for their academic work, they also nurture your child to be socially responsible, empathetic, mindful and respectful. I believe those are the values that you’d want any young person to adopt. These values have been built into the school’s everyday life and culture, which I think is really special. ”

Christina O.

Admissions

The academic year at OWIS begins in August and concludes in June. However, prospective students can apply for admission at any point during the school year. Admission into the school is dependent on the student's overall application as well as the availability within their particular grade level.

Any student who is interested in attending school at OWIS must follow the steps of the application process and complete each portion of the application form in order for their admission to be considered. At OWIS, we are committed to making sure that our application process is as straightforward and simple as possible, which helps streamline our admissions process.

Our Admissions Process

1. Complete application form online and upload all necessary documents, which includes past school reports and reference materials from previous teachers or carers.
2. Pay the one time non-refundable application fee.
3. We often have a discussion with new parents as well as an informal interview with the student. Assessment tests are conducted for certain grades.
4. To confirm the admission, a place of offer is shared with the parent that they have to accept. This confirms that we're able to offer a seat to the child.
5. The login details for the parent portal are shared and parents are required to generate an e-contract.
6. Optional - Submit the registration form for school bus only if you're availing school transport.
7. Make payment of tuition fees.
